EDUCATION

B.Tech in Computer science and Engineering

GCETT-B

CGPA - 9.2 (Till 5th Semester)

India | 2020 - 2024

SKILLS

Programming Language: C, C++, JavaScript

Frontend Development: Html, CSS, Tailwind CSS, Bootstrap, JavaScript, ReactJs

Backend Development: Nodejs, ExpressJs, MongoDB

Tools: Git, GitHub, Postman

PROJECTS

AIRBNB CLONE

GITHUB

- Designed and implemented a responsive and user-friendly frontend using **React** and **Tailwind CSS**.
- Ensured secure registration, and log-in to the application by using technologies like **bcrypt, jwt**.
- Implemented back-end API endpoints using **Express.js** to handle requests and provide data to the front-end application.
- Integrated with the **MongoDB** database to store and retrieve listing information, user data, and authentication details.
- Utilized **AWS S3** and **AWS SDK** to enable users to upload and manage photos for their listings.

PORTFOLIO WEBSITE

GITHUB

- Developed a professional portfolio website using **React.js** and **Vanilla CSS** to showcase personal projects, skills, and experience.
- Utilized **React components** and **state management** to create a dynamic and interactive user experience.
- Designed and implemented a **responsive** and visually appealing user interface.
- Integrated **EmailJS** to enable seamless communication and interaction with visitors

HTML-CSS-JAVASCRIPT PROJECTS

GITHUB

- Maintained an active GitHub repository hosting a collection of **HTML, CSS, and JavaScript** projects.
- Hosted all projects on **GitHub Pages**, providing live links in the repository's README for easy access and demonstration.
- Developed and updated a diverse range of projects, including responsive layouts, and interactive components.

CODING PROFILES

- **LeetCode Profile Link** : Solved 230+ problems.
- **GeeksforGeeks Profile Link** : Solved 120+ problems
- **Codeforces Profile Link** : Solved 120+ problems.
